#### Features and Benefits:

##### Features:

- All natural
- Non regulated and Non WHMIS
- Non flammable
- Non hazardous - No petroleum solvents
- Non caustic
- No flash point
- User friendly
- Biodegradable
- Non toxic
- Can be diluted with fresh or salt water
- Economical - Can be diluted with up to 10 parts water.

##### Benefits:

SKONE is the safest, environmentally responsible, non-flammable bilge cleaner available. It is fully biodegradable, and exhibits very low marine toxicity hence it is suitable for both onshore and offshore applications. SKONE is a specially engineered blend of natural based emulsifiers designed for maximum degreasing power and rapid biodegradability. SKONE contains an oil solubilizing solvent which offers enhanced soil, oil and grease penetration and removal properties therefore it is excellent to remove oil, grease, mud and dirt from boats, decks, ships and rigging superstructures. SKONE is a convenient and easy to use product which may be diluted with either fresh or salt water. SKONE is non-caustic, low irritancy and ultra-low toxicity, thereby eliminating all the usual hazards associated with conventional bilge cleaners. It offers very effective cleaning without long term negative environmental impact.
